

MY IMPRESSIONS ON THE MOBILITY IN ROMANIA.

These are my feelings and impressions of my journey in Romania.

When I arrived in the city of Mioveni I already had a good feeling with my host family, they were so kind and hospitable.

Their house was very nice and I felt soon comfortable with my friend Tavi.

The school was smaller than our school but they had a lot of classrooms and many laboratories and we had an amazing Geography and History lesson and also a music lesson with Mrs Liliana(a very good folk singer!).

The trips were nice and interesting. My favourite trips were when we visited the Salt Mine because there were many underground places we could visit and the walls were made of salt and Vidraru lake with a a landscape so green!!! and the 1480 stairs we climbed to reach the top of the Fortress! They have been the most beautiful journeys! Congrats also for the musical the Wizard of Oz, where the Romanian students performed and danced.

Thanks to Tavi's family I learnt many things about the Romanian traditions, food and their kind hospitality. I spent good time with Tavi and all the other friends. When I left the city and Romania I felt really bad, but I'm sure I have met wonderful people and I have a new friend.

Dear Tavi thanks for all!!!

MY EXPERIENCE IN ROMANIA

IN MY JOURNEY IN ROMANIA I WAS HAPPY TO MEET AGAIN MY FRIEND OCTAVIAN AND HIS FAMILY! HE IS VERY NICE AND A GOOD FRIEND!

MY HOST FAMILY WAS REALLY WELCOMING AND THEY DIDN'T LET ME MISS ANYTHING. I ALSO LIKED THE CITY NEAR OURS, PITESTI, THAT WAS VERY NICE.

WE HAD THE OPPORTUNITY TO VISIT THE ROMANIAN SCHOOL AND TO LEARN SOMETHING ABOUT THEIR LESSONS AND ACTIVITIES.

WE VISITED MANY TOWNS AND BEAUTIFUL COUNTRYSIDE.

THEN WE WENT TO DO SOME ARTWORKS IN THE WOODS AND I LIKED WHEN WE CREATED POETRY AND PERFORMED IT. THE TRIPS WERE VERY GREAT AND INTERESTING. MY FAVOURITE ONE WAS ON WEDNESDAY, AT THE SALT MINE. IT HAS BEEN AMAZING TO SEE A MINE SO LARGE! I ENJOYED ALSO THE FRIENDSHIP PARTY, SO WELL ORGANIZED! THANKS TO THIS COMENIUS PROJECT WE HAVE MET NEW PEOPLE AND VISITED NEW PLACES BUT ON SUNDAY, WHEN WE LEFT OUR COMENIUS FRIENDS, WE WERE ALL SAD. THANK YOU FOR ALL!

MY IMPRESSIONS ON THE MOBILITY IN ROMANIA

Before arriving in Romania, I was looking forward to see David again and meet his family. When I entered their home I felt comfortable and relaxed.

On Tuesday, we visited the school. It had many classrooms and laboratories and I liked the Comenius corner a lot! In the afternoon, we went in the woods in Faget area where we made some artwork. When it was night, we went out to eat pizza with our friends.

The trips were various and interesting and my favourite trips were when we visited the Salt Mines (19 metres underground) and the Poienari Castle(very important for the Dracula legend).

I liked also the musical " The Wizard of Oz!"

I lived many funny and important moments with David and all the other Comenius friends. I have to thank all the teachers for the work they made in this Project.

The last day, I was really sad because I really liked the city!!!

MY JOURNEY IN ROMANIA

On Monday, when I arrived in Romania I saw Alex my partner, that I have hosted in Rome. He is a friendly boy and he is very nice. I was happy to meet also his family. They were so kind and friendly and I want to thank them for all!!!

We visited the school in Mioveni, not so large as ours in Italy but well organized with a lot of useful spaces. The Italian group had a Geography and History lesson and at the end of it all the students got a certificate. For creating Art Voices we walked in a forest and each group chose a place and collected natural materials, like stones, leaves, sticks for the artwork.

On Wednesday, We visited the salt mine and the Woman's Cave and I really liked it. The walls of salt were really cool.

We visited the famous and impressive Monastery Curtea de Arges and we learnt about the legend of Manole! Another place I liked so much was the Racovita Tower.

On Sunday I was sad that we left Romania and I would like to visit it again and to meet Alex in the future!!! Thanks Comenius
