

Dear Santa Claus,

First I want to tell you that I worked with pleasure this entire year within our multilateral Comenius project “The Voices from the Land” and I made a lot of friends during the mobility I took part.

To have around me European teachers and pupils from Turkey, Poland, Italy, Latvia and Spain was a unique chance in my life. That’s why I am very grateful to all the coordinating teachers in my school for including me in this project team.

A few weeks ago, I told my impressions about the mobility in Poland to all the citizens of my nice town within an educational show presented by our Comenius team at the local TV station. I don’t know if you were allowed to watch it but I can tell you I was very excited. I have added you in this letter a photo taken during this TV show by my little brother, who watched it.

Through this letter I also want to ask you, dear Santa Claus, for bringing beautiful presents to my project partners from all the other five Comenius partner countries, especially to Konrad Madej, my Polish friend, who really was a wonderful host pupil for me.

I know you are very busy now, but, when you will finish your work and you will rest for a while, please try to follow the link of our project to see how interesting activities we have made together with our European friends: <http://thevoicesfromthelandcomenius.weebly.com/index.html>.

During “Liviu Rebreanu” School Days, we have invited many kids from the kindergartens in Mioveni Town to visit our school and to show them the wonderful activities we have developed along the project. Please, dear Santa Claus, send to them games and toys to enlighten their childhood.
