

Dear Santa Claus,

The first name which comes in my mind when I think to the persons for whom I want to please you to bring them Christmas gifts is Sara. She is the wonderful girl who became my host partner pupil during the mobility in Italy I took part within our multilateral Comenius project “The Voices from the Land”.

To all the partner pupils and teachers I knew then, bring something, not for me. They became very important in my life, due to this project. We had the opportunity to develop a lot of activities together. A special gift, bring to the Italian pupil who acted the role of Pinocchio in the play with the same name, performed by their team. He was magnificent, believe me.

If you intend to send Christmas postcards to teachers in this world, I recommend you to have in your long list the names of the six hardworking coordinating teachers of the schools involved in this project. And bring not only for them. Behind these names there are six brave and strong teams of teachers which are giving their help in order to achieve together their pupils all the tasks of the project.

Besides, when you will arrive in the houses of the pupils involved in the project, send all our gratitude to their parents without whom our Comenius project would not have got such good results.

I know, dear Santa Claus, you will not forget the orphan children from Turkey, Romania, Poland, Latvia, Spain and Italy. I trust in your good soul. It's in fact the reason for which all the children on this land love and wait for you every year.

Best regards,

**Bianca Negoescu, a pupil in the 7th class C
from „Liviu Rebreanu” Gymnasium School,
Mioveni Town, Argeş County, ROMANIA**
