

MY EXPERIENCE IN ROMANIA

My experience in Romania was very beautiful and interesting because I met my friend Bianca, the other European partners and I saw many new places thanks to the Comenius project!

Her family was very friendly and I was very happy to see her again. In those seven days we visited the school, where we had some amazing lessons and activities with our Romanian friends, the Salt Mine near Horezu, a very old Monastery, then we climbed more than 1000 stairs of a fortress, a clay factory and the last day before leaving we had a short but nice tour in Bucharest .

They were really beautiful days and I 'll never forget Bianca! Thanks!

MY EXPERIENCE IN ROMANIA

Two weeks ago I was in Romania.

The first day I arrived in Mioveni at about 4 p.m. and our host let us know the town.

Victor's family was nice and friendly. Their house was very comfortable, big and welcoming. The second day we stayed in Mioveni's school with my friends to meet the headmaster and to watch the typical Romanian dances and lessons. The third day we visited the Salt mine and other interesting places. The following day we stayed in the Cultural Centre of Mioveni for the play "The Wizard of Oz" performed very well by the Romanian students!

On the last day I greeted sadly my family and then we left Mioveni at 8.00 a.m. We arrived in Bucharest airport at 1.00 p.m. and we visited the city for 2-3 hours. Then we returned to the airport to fly back to Italy.

It was my first time in Romania and I think it is really beautiful and welcoming! Thanks for all Victor!
